

# LM-Activator™ International Hands-On Course

## A Practical Approach to LM-Activator™ Eruption Guidance Appliances November 24–25, 2023 in Caserta, Italy

In this clinical course you will get practical guidance into working with LM-Activator™ Eruption Guidance Appliances in treating different kinds of malocclusions in mixed dentition. You will get insight into how the appliance is working and there will also be real cases with patients.

This course is suitable for participants who are familiar with treating patients with eruption guidance appliances and who would like to get more in depth understanding of the possibilities of treating with LM-Activator™ together with practical, clinical guidance. The program consists of both theoretical background and clinical cases with patients at Dr. Pellegrino's clinic. The diagnosis and treatment plan is discussed for each case. In addition, Dr. Pellegrino will demonstrate the diagnosis and the selection of the appliance with actual patients at the clinic.

### Preliminary Program

## Course Instructor Dr. Gioacchino Pellegrino

### Dr. Gioacchino Pellegrino, DDS, Specialist in Orthodontics, Italy

Dr. Pellegrino graduated with honors from the University of Naples in 1985 and he is working in his private orthodontic clinic in Caserta, Italy. In 1993, Dr. Pellegrino completed his postgraduate training in orthodontics and thereafter he has participated in a great number of continuous education courses in various topics of orthodontics.

In recent years Dr. Pellegrino has acted in several academic positions as a teacher and as an adjunct professor (University of Naples Federico II, University of Foggia and University of L'Aquila). He is frequently invited lecturer in national and international conferences and private courses. Dr. Pellegrino has published several peer-reviewed papers and he is a member of several dental and orthodontic societies (SIDO, EOS, IBO, EBO, ANDI and SIO). In 2020-2021 he was also a member of the board of the Italian Society of Pediatric Dentistry.
